

# Septic System Supplement

*Avir Natural Clean* Septic System increases solids reduction in septic tanks and mounds to prevent drainfield backups. It maintains a healthy level of scum and sludge in septic tanks by digesting grease, food and feces.

*Avir Natural Clean* Septic System utilizes biodegradable surfactants to emulsify grease, oil and organic binders, along with a natural blend of enzymes to increase the activity and numbers of microbes present.

By accelerating the natural remediation process, *Avir Natural Clean* Septic System is the safe chemical free supplement for your system.

- Accelerates breakdown of grease and odor causing contaminants
- Prevents exceeding tank or mound capacity prematurely
- Minimizes pumping frequency
- Reduces buildup in drainfield lines
- Safe for ground water
- Phosphate solvent and toxin free

## Septic System Supplement Application Guidelines

### Application

#### *Residential*

2 ounces per week for system under 1000 gallons. Mix with 1 gallon lukewarm (105°-115°F) water and add to system.

#### *Private Utility/Commercial System*

8 ounces per week per 1000 gallons. Mix with 5 gallons lukewarm (105°-115°F) water and add to system at low flow period or use a feed system to regularly add product.

#### *Drainfield Opener*

20 ounces per 150 sq. ft. of drainfield area. Mix with 10 gallons lukewarm (105°-115° F) water and spray topically then spray with water until soil is fully saturated. Repeat as needed.

### For Optimum Results

- Add product at night or at low usage times.
- Mix with warm to lukewarm (105°-115° F) water when diluting.
- When starting with this product, jump start a system by adding a second dose in the first week.
- Use *Avir Natural Clean Drains* to treat any slow drains in system.

### Technical Specs

pH range: 3.25-4.20  
Fragrances: None added
