

1. Chemical Product and Company Information

Trade Name: Avir Natural Water Dry Bacteria Sludge Control Revision Date: 11/05/2005
CAS Name: Mixture
Product Description: A concentrated nonhazardous multi-cultural bacteria blend on a fortified grain carrier for sludge control These naturally occurring microorganisms are known to be non-pathogenic to humans, fish or aquatic plants.
Manufacturer's Name: Avir Environmental, LLC
Address: P.O. Box 629 Denver, CO 80151 USA
For Technical Support: 303.300.1515
For Emergency : 303.300.1515

2. Composition / Information on Ingredients

Name	CAS#	WT.%	TLV
------	------	------	-----

Dry Bacteria ingredients not precisely identified are proprietary or nonhazardous as listed in 29 CFR 1910.1200 or other pertinent sections of OSHA Regulations.

3. Physical and Chemical Properties

Solubility in Water: Moderate - disperses in water
Appearance: Light brown powder
pH: NA
Bulk Density: NA
Odor: Bland

4. Fire Fighting Measures

Fire and Explosion: None known
Extinguishing Media: Water or foam
Fire Fighting Instructions: Wear self-contained breathing apparatus and protective clothing. Use water to cool containers. Moisten with water to reduce dust explosion hazard.

5. Accidental Release Measures

* Wear approved respirator for nuisance dust during cleanup. For all spills contain and collect for reuse.

Disposal: Disposal of this product or its residues must be in accordance with a local, state and federal environmental regulations.

6. Stability and Reactivity

Stability: Stable
Conditions to Avoid: Strong acids as they may inactivate cultures
Hazardous Decomposition Products: Oxides of carbon and nitrogen
Hazardous Polymerization: Will not occur

7. Hazards Identification & First Aid Measures

HMIS RATINGS: Health - 1 Fire - 0 Reactivity - 0 Personal Protection - See Section 8

Routes of Entry: Product may enter the body via eye contact, skin contact and ingestion.
Potential Health Effects: Limited toxicity data is available on the product. The health hazard assessment is primarily acute irritation sensations with no known chronic effects.
Eye: Eye contact with product may cause irritation. Avoid eye contact with product.
Skin: Slight redness on hands and forearms if individual has a history of dermal allergic reaction or with prolonged exposure. Bacterial infection may occur through open wounds or broken skin. Contact with these should be avoided.
Skin Absorption: It is unlikely that systemically toxic concentrations will be absorbed through skin.
Ingestion: Swallowing may cause irritation of mouth and throat. It may also cause nausea, vomiting or diarrhea. Do not taste or swallow product.
Inhalation: Product may produce nuisance dust which will irritate respiratory passages and may affect people with asthma.

FIRST AID MEASURES

Eye Contact: Immediately flush eyes with a directed stream of water for at least 15 minutes while forcibly holding eyelids apart to ensure complete irrigation of all eye and lid. Seek Medical Attention if Irritation Persists.
Skin Contact: Flush skin with water and wash with soap and water. If clothing is penetrated, immediately remove clothing and flush skin with water. Wash clothes before reuse. Get Prompt Medical Attention If Irritation Occurs.
Ingestion: No effect if ingested in small amounts. Give affected person several glasses of water and induce vomiting. Irritation of the mouth, pharynx, esophagus and stomach can develop following ingestion. Get Immediate Medical Attention.
Inhalation: Product may produce nuisance dust which will irritate respiratory passages and may affect people with asthma.

8. Exposure Controls, Personal Protection

Minimize exposure in accordance with good hygiene practice.
Avoid handling which would create large amounts of dust.
Ventilation: General mechanical ventilation, local exhaust.
Respiratory Protection: (specify type) If needed, use MSHA-HIOSH approved respirator for nuisance dust.
Protective Clothing: Take all precautions to prevent skin contact. Wear long sleeve clothing and rubber gloves.
Eye Protection: Chemical goggles recommended.
Other Protective Eqmt.: As recommended by federal, state and local regulations.

9. Handling and Storage

Storage Temperature: Store this product below 100° F (° C) and do not freeze. Store in a cool, dry, well ventilated area away from heat and out of direct sunlight. For best results use within 12 months. Never commingle with bactericides or quaternary disinfectants, as they will degrade/inactivate bacteria.
General Precautions: Keep container tightly closed when handling or storing. Keep out of the reach of children.

10. Other Information
